

Climate, Racial and Social Justice principles

01. Move with urgency

to become a community that has the capabilities to address the social, racial and environmental injustices of climate emergency using creativity and resourcefulness. We offer hope through action, committing to the decolonisation and decarbonisation of our education and creative practices.

02. Cultivate systems thinking and practices

that meaningfully acknowledge the interconnections and complexity of life on earth.

03. Foster futures thinking

to design for possible futures that restore and regenerate, unleashing the power of imagination through participatory and speculative methods.

04. Design for human equity, social and racial justice

by mobilising critical thinking, humbly questioning the norms, practices and biases embedded in our societies and cultures. We recognise and reflect on our individual actions and societal values through self-awareness and reflective practice.

05. Accelerate activism and advocacy

by participating in co-creation and actions that realise change in solidarity with those within and outside of our community. We advocate for justice for nature and humanity through our creative practices.
